The MayaaVerse

ONE WORLD, ENDLESS CREATIONS

Redefining **Real Estate** in the Immersive Realm

Metaverse

Empower your clients to delve into tomorrow's lifestyle and society—delivering the future vision, today.

Configurator

Enable clients to visualize, shape, and personalize their properties in a virtual world.

Meta Smart Home

Offers clients an engaging experience to customize and control smart home simulations for better personalization and immersive visualization.

Chat Bot

Engage with an AI-powered virtual expert, offering 24/7, instant, and collaborative solutions that transform engagement.

MAYAAVERSE

What **MayaaVerse** brings for you in **Real Estate**?

Enhanced Buyer Experience & Accelerated Sales

- Photorealistic property showcases with improved space perception.

- Interactive elements for deeper engagement and emotional connection.

- Immersive experiences leading to stronger connections and quicker decisions.

- Focused information delivery highlighting key selling points.

- Efficient identification of suitable properties for buyers.

Global Reach & Operational Efficiency

- Worldwide property exposure and 24/7 digital support.

- Multiple property listings for increased options and exposure.

- Reduced costs for property visits and virtual staging options.

- Improved ROI through higher engagement and lower operational costs.

- Simultaneous client management for faster sales processes.

# Reimagining **Heritage** with Immersive Technology

Reconstruction

Enable clients to revive history with virtual reconstructions of heritage sites.

Interactive Maps

Equip clients with AR/VR maps for immersive and limitless exploration.

Virtual Tours

Empower clients to offer immersive journeys through legendary historic sites and temples.

Events Platform

Empower clients to host virtual festivals and celebrations at iconic historic sites.

MAYAAVERSE

What **MayaaVerse** brings for you in **Heritage**?

## Enhanced Historical Experience & Educational Impact

- Immersive, photorealistic recreations of historical sites and events.

- Interactive elements for deeper engagement with historical content.

- Accessible global exploration of historically significant locations.

- Focused delivery of historical information through engaging virtual experiences.

- Efficient learning through interactive and visual historical presentations.

Global Reach & Operational Efficiency

- Worldwide access to historical sites and artifacts.

- Multiple historical experiences available in one platform.

- Reduced costs and risks associated with physical site visits.

- Improved preservation efforts through digital documentation and reconstruction.

- Simultaneous educational experiences for diverse global audiences.

Revolutionizing
Upholstery/Textile Industries

Product Configurator

Empower clients to design and customize dream products with our interactive configurator.

Scene Configurator

Enable clients to craft stunning realities using our advanced scene configurator.

Virtual Sales Representative

Connect with an AI-powered virtual textile expert 24/7 and close deals effortlessly.

Analytical Dashboard

Drive success with powerful insights from our integrated analytics dashboard.

MAYAAVERSE

What **MayaaVerse** brings for you in **Upholstery/Textile**?

Enhanced Design Experience & Market Responsiveness

• Photorealistic fabric and upholstery visualization.

• Interactive elements for deeper engagement with textile designs.

• Immersive experiences leading to quicker design decisions.

• Focused information delivery on textile properties and trends.

• Efficient identification of market preferences and emerging styles.

Global Reach & Operational Efficiency

• Worldwide exposure for textile products and designs.

• Multiple design iterations and showcases in a virtual environment.

• Reduced costs for physical samples and showrooms.

• Improved ROI through virtual product development and testing.

• Simultaneous client handling for faster design and sales processes.

Redefining **Learning and Development** with Immersive Technology

Virtual Classrooms

Access education from anywhere and drive growth with our cutting-edge technology.

AR Books

Enhance learning with immersive AR-powered books for interactive education.

Teacher Avatar

Upgrade lessons with our next-generation AI teacher avatar, making education more dynamic.

Virtual Platform

Unified global learning through our virtual events platform.

MAYAAVERSE

What **MayaaVerse** brings for you in **Learning and Development**?

Enhanced Learning Experience & Skill Development

• Immersive, interactive learning environments for deeper engagement.

• Personalized learning paths adapted to individual needs and pace.

• Real-time feedback and assessment for continuous improvement.

• Focused delivery of educational content through diverse virtual mediums.

• Efficient skill acquisition through practical, risk-free simulations.

Global Accessibility & Educational Efficiency

• Worldwide access to quality education and training resources.

• Multiple learning formats available on a single platform.

• Reduced costs associated with physical infrastructure and materials.

• Improved learning outcomes through data-driven insights and personalization.

• Scalable solutions for simultaneous learner engagement across the globe.

Mai Labs

A pioneering deep-tech stalwart, dedicated to advancing Digital Public Infrastructure (DPI) through innovative solutions in AI, Blockchain, and Immersive Experiences.

UNLEASHING INNOVATION, PATENTING TOMORROW!

Smart Furniture Content Interaction System and Method

Integrates technologies into furniture for immersive, multi-sensory content engagement, transforming user interaction with digital and physical environments.

Content Interaction System and Method - 5 Senses

Delivers a comprehensive experience by integrating sight, sound, smell, taste, and touch into a unified content system, surpassing traditional sensory limitations.

Content Interaction System and Method - 4 Senses

Engages sound, sight, taste, and smell through multiple devices, bridging real and virtual worlds with a unique four-sense experience.

MAYAAVERSE

Content Interaction System and Method - 3 Senses

Utilizes sound, sight, and smell to enhance digital media engagement, creating new industry opportunities with integrated sensory experiences.

Cost Per Sense System and Method

Provides a pricing model based on sensory engagement, allowing content providers to monetize and measure the value of interactions through variable pricing tiers.

Content Interaction System and Method for Smart Furniture

Integrates immersive multimedia experiences into smart furniture, offering interactive and personalized features that redefine user engagement with digital media.

WHERE VIRTUAL REALITY MEETS YOUR SENSES

Optimize and Innovate
with **Digital Twins**

Key Personnel
Elevate performance with digital twins of your key team members.

Manufacturing Facility
Elevate production processes by integrating digital twins into your manufacturing operations.

IoT Simulation
Gain future-ready insights with IoT-driven simulations powered by digital twin technology.

Virtual Platform
A unified virtual platform for multi-party digital twin integration to streamline collaboration.

MAYAAVERSE

What **MayaaVerse** brings for you in **Digital Twin**?

Enhanced System Understanding & Optimization

- Immersive visualization of complex systems and processes.

- Interactive modeling for deeper engagement with system dynamics.

- Real-time data analysis leading to quicker decision-making.

- Focused delivery of system performance insights.

- Efficient identification of optimization opportunities and potential issues.

Global Collaboration & Operational Efficiency

- Worldwide access to digital twin models and data.

- Multiple system simulations available on a single platform.

- Reduced costs associated with physical prototyping and testing.

- Improved ROI through predictive maintenance and optimized operations.

- Simultaneous multi-user interaction for enhanced collaborative problem-solving.

MAYAAVERSE

What **MayaaVerse** brings for you in **Virtual Events Platform**?

Enhanced Event Experience & Engagement

- Immersive, photorealistic virtual environments for captivating event experiences.

- Interactive elements fostering deeper attendee engagement and networking.

- Customizable spaces allowing for unique, brand-aligned event designs.

- Real-time analytics for immediate insight into attendee behavior and preferences.

- Multi-sensory experiences enhancing information retention and participant satisfaction.

Global Reach & Operational Efficiency

- Worldwide accessibility, eliminating geographical barriers to attendance.

- Scalable attendance capacity without physical space limitations.

- Significantly reduced costs compared to physical event production.

- Improved ROI through enhanced sponsorship opportunities and data-driven insights.

- Efficient event management with automated processes and AI assistance.

Transform **Automotive** Design with Immersive Technology

Configurator
Perfect your vehicle design with our detailed automotive configurator.

Virtual Showroom
Enhance engagement by letting customers explore their dream car in our virtual showroom.

Virtual Prototyping
Unleash the Power of Virtual Prototyping in Automotive Design.

Product Launch Platform
Instantly reach global audiences with our virtual launch stage.

MAYAAVERSE

What **MayaaVerse** brings for you in **Automotive**?

Enhanced Customer Experience & Personalized Design

- Photorealistic vehicle showcases with customizable features.

- Interactive elements for deeper engagement and emotional connection.

- Immersive test drives for a lifelike evaluation of vehicle performance.

- Focused information delivery on technical specifications and personalization options.

- Efficient identification of customer preferences and tailored recommendations.

Global Reach & Accelerated Innovation

- Worldwide product exposure and 24/7 digital showroom access.

- Multiple vehicle models and configurations available for exploration.

- Reduced costs for physical prototyping and test drive logistics.

- Improved ROI through data-driven design decisions and streamlined launches.

- Simultaneous engagement with global audiences for faster market insights.

Immersive **Healthcare** Solutions

Virtual Consultations

Secure, private consultations anytime, anywhere, while expanding global reach affordably.

Healthcare Assistance

Instant, personalized, and 24/7 mental health support with our AI-powered healthcare assistant.

Medical & Health Visualization

Elevate diagnosis and education with 3D DICOM anatomy models and engaging virtual seminars.

Virtual Healthcare Platform

Connect, learn, and enhance mental health through virtual events and support groups.

MAYAAVERSE

What **MayaaVerse** brings for you in **Healthcare**?

Enhanced Patient Care & Mental Health Outcomes

- Immersive virtual consultations for improved doctor-patient interactions.

- Interactive health education tools for better patient understanding.

- Real-time access to medical expertise, reducing diagnosis and treatment delays.

- Focused delivery of medical and mental health information through intuitive virtual interfaces.

- Medical training and mental health support through realistic 3D anatomical simulations and personalized interventions.

Global Healthcare Access & Operational Efficiency

- Worldwide access to medical expertise and virtual healthcare services.

- Multiple unified virtual platforms for healthcare and mental wellness.

- Reduced costs associated with physical healthcare infrastructure and increased accessibility.

- Improved healthcare and mental health outcomes through data-driven insights.

- Streamlined medical and mental health processes for faster and more efficient patient care.
